INDEPENDENT AUDITOR'S REPORT

June 27, 2007

Township Board
Greenwood Township
Lewiston, Michigan 49756

I have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Greenwood Township as of and for the year ended March 31, 2007, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Greenwood Township's management. My responsibility is to express opinions on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Greenwood Township, as of March 31, 2007, and the respective changes in financial position, thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis and budgetary comparison information on pages 1 through 4 and 21 through 22 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Greenwood Township's basic financial statements. The introductory section, and combining non-major fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining non-major fund financial statements have been subjected to the auditing procedures applied by me in the audit of the basic financial statements and, in my opinion, based on my audit are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

GREENWOOD TOWNSHIP

MANAGEMENT'S DISCUSSION AND ANALYSIS

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Township as a whole and present a longer-term view of the Township's finances. Fund financial statements tell how these services were financed in the short-term, as well as what remains for future spending. Fund financial statements also report the Township's operations in more detail than the government-wide financial statements.

THE TOWNSHIP AS A WHOLE

The Township's combined net assets increased 7.18% from a year ago – increasing by \$92,409. As we look at the governmental activities you can see the increase occurred throughout the entire group of governmental funds.

This year the township continued to add new subdivided lots to the property tax rolls with the continued expansion of Garland Resort as well as other new subdivisions. The Township Board formed a parks and recreation plan and began the development of a new Educational Walk Trail. The parks and recreation committee sought grants for the first two phases of the trail project and to date has received a Title III grant for \$3,000 and a grant from Great Lakes Energy for \$2,000. The project will have a planned dedication and opening in late August of 2007.

The Township added a full time maintenance employee and purchased the related equipment (truck, lawn equipment, and snow removal equipment).

We also installed a new 8" well at Fire Station #2 to better serve the fire protection needs in the south part of our township. This expenditure was cut in half by the donation of the actual well drilling from the contractor. The board approved and completed: renovations of Fire Station #2 interior, placed new signs at #2, placed a fire danger sign at Station #1, and renovated the old Station #1 to a buildings and grounds maintenance building.

In a condensed format, the table below shows a calculation of the net assets as of the current balance sheet date.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

Unrestricted net assets – the part of net assets that can be used to finance day to day operations ended the year at \$339,568.

The following table shows the changes in the net assets as of the current year.

Total Expenses	<u>325,752</u>	<u>313,523</u>
Change in Net Assets	<u>\$ 92,407</u>	<u>\$ 78,634</u>

The Township's net assets continue to remain healthy. With new residents moving in, the total revenues grew slightly faster than inflation while we were able to hold expenses in line.

GOVERNMENTAL ACTIVITIES

The Township's total governmental revenues were \$418,159.

During the year the Township approved an ordinance for Fire Protection, using the International Property Maintenance Code as a guide, a Fire Charge Ordinance, continued work on the Master Plan, and continued vigorous enforcement of the Blight Ordinances.

The Board implemented a job description and duties handbook for the building and grounds maintenance employee as well as the hiring practice, implemented a new zoning ordinance to deal with manufactured housing and manufactured home parks and authorized the township supervisor to begin studies for assessor I.

THE TOWNSHIP'S FUNDS

Our analysis of the Township's major funds begins on page 8 following the Township-wide financial statements. The fund financial statements provide detail information about the most significant funds, not the township as a whole. The township board creates funds to help manage money for specific purposes as well as to show accountability for certain activities, such as special property tax millages. The Township's major funds for 2006/07 include the General fund, Fire Fund, and Fire Hall Debt Retirement Fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

THE TOWNSHIP'S FUNDS (CONTINUED)

The General fund pays for most of the Township's governmental services. The most significant expenditures are assessing at \$26,895 landfill transfer site at \$28,547, and planning and zoning at \$15,965.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Township board amended the budget to take into account events during the year. There were only minor budget adjustments during the year. The General Fund Balance increased by \$22,155 during the year.

CAPITAL ASSET AND DEBT ADMINISTRATION

At March 31, 2007 the Township had \$937,328 invested in net capital assets in a broad range of capital assets, including buildings and fire equipment.

The Township has \$522,171 in long-term debt at March 31, 2007. The debt included \$210,000 for fire hall building debt, \$110,000 for town hall building debt, \$80,000 for special assessment road improvements, \$99,543 for a fire truck installment loan and \$22,628 for a fire truck refurbishment installment loan. Debt principal payments totaled \$99,092 during the year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Township's budget for 2007/08 calls for no increase in property tax rates. Because of the impact of Proposal A, however, the Township needs to continue to watch its budget very closely. The state-wide tax reform act limits growth in taxable value on any individual property to the lesser of inflation or 5%. Because some properties increase in value by less than inflation, the mathematical result of this is that the total taxable value for the Township will grow less than by inflation, before considering new property additions.

With the additional parcels added to the assessment roll and through the continued growth in our tax base, we do not anticipate any changes to our tax rates for 2007/08. Tax renewal vote language for the Fire Department Operating Expenses is being developed for 2008.

CONTACTING THE TOWNSHIP'S MANAGEMENT

This financial report is intended to provide our citizens, taxpayers, customers, and investors with a general overview of the Township's finances and to show the Township's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the clerk's office at (989) 786-7872 or visit the Township offices.

**GREENWOOD TOWNSHIP
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Greenwood Township conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Township.

REPORTING ENTITY

The General Law Township is located in Oscoda County, Michigan and operated under an elected Township Board consisting of a Supervisor, Treasurer, Clerk, and two Trustees. This Board and its employees provide services to its residents in areas such as fire protection, voter registration, and maintenance of township facilities.

The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the Township's reporting entity, and which organizations are legally separate, component units of the Township. Based on the application of the criteria, the Township does not contain any component units.

TOWNSHIP-WIDE AND FUND FINANCIAL STATEMENTS

The township-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the Township's Township-wide activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes, intergovernmental payments, and other items not properly included among program revenues are reported instead as general revenue.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the township-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Township-Wide Financial Statements - The township-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the township-wide financial statements.

**GREENWOOD TOWNSHIP
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2007**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Amounts reported as program revenue include (1) charges to customers or applicants for goods, services, or privileges provided; and (2) operating grants and contributions. Internally dedicated resources are reported as general revenue rather than as program revenue. Likewise, general revenue includes all taxes and unrestricted state aid/revenue sharing.

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Township considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to claims and judgments, are recorded only when payment is due.

Property taxes, unrestricted state revenue sharing, intergovernmental grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the Township.

Fiduciary fund statements are also reported using the economic resources measurement focus and the accrual basis of accounting. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

The Township reports the following major governmental funds:

General Fund - The General Fund is the Township's primary operating fund. It accounts for all financial resources of the Township, except those required to be accounted for in another fund.

Fire Fund – This is a special revenue fund used to record revenue and expenditures related to the fire department activities.

Fire Hall Debt Retirement Fund – this is a debt service fund used to record the proceeds from tax levies and to record the debt principal and interest payments.

Additionally, the Township reports the following governmental types:

Town Hall Debt Retirement Fund and Special Assessment Fund

Fiduciary Funds – The Township maintains an Agency Fund to record the tax collection transactions. The funds are segregated and used to record the tax collection and distribution of taxes to the various taxing entities.

ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY

Cash and Investments – Cash and investments include cash on hand, demand deposits, and savings accounts and certificates of deposit.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Receivables and Payables – In general, outstanding balances between funds are reported as “due to/from other funds.”

All property tax receivables are shown net of an allowance for uncollectible amounts. The Township considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded. Property taxes are assessed as of December 31 and the related property taxes are levied and become a lien on December 1 of the following year. These taxes are due on February 14 with the final collection date of February 28 before they are added to the county delinquent tax rolls. The County operates a delinquent tax revolving fund and normally pays to the Township all current taxes annually prior to June 30.

Restricted Assets – The fund balance in the debt service funds and special assessment fund are shown as a restricted fund balances. These balances can only be used to service the respective debt and special assessment expenses.

Capital Assets – Capital assets, which include land, buildings, equipment, and vehicles, are reported in the applicable governmental column in the Township-wide financial statements. Capital assets are defined by the Township as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The Township does not have infrastructure-type assets.

Buildings, equipment, and vehicles are depreciated using the straight-line method over the following useful lives:

Buildings and building additions	10-50 years
Fire trucks and other vehicles	7-15 years
Furniture and other equipment	2-20 years

Long-Term Obligations – In the Township-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of net assets.

Fund Equity – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Accounting Change – Effective April 1, 2004, the Township implemented the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments* (GASB No. 34) along with all related statements and interpretations. Changes to the Township’s financial statements as a result of GASB No. 34 are as follows:

- § A Management’s Discussion and Analysis (MD&A) section providing analysis of the Township’s overall financial position and results of operations has been included.
- § Township-wide financial statements (statement of net assets and statement of activities) prepared using full accrual accounting for all of the Township’s activities have been provided.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- § Capital assets in the governmental activities column of the statement of net assets includes assets totaling \$937,328 not previously accounted for by the Township
- § The governmental activities column includes bonds and other long-term obligations totaling \$522,171 previously reported in the General Long-term Debt Account Group.
- § The fund financial statements focus on major funds rather than fund types.

BUDGETS AND BUDGETARY ACCOUNTING

All funds are under the direct supervision and budgetary control of the Township board. In accordance with PA 621 of 1978, the Uniform Budgeting and Accounting Act as amended, the Township board adopts a budget for the general fund and the fire special revenue fund. Any budget violations are disclosed in the audits of the Township's financial statements as required by law.

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. The budgets, as adopted, lapse after the close of the fiscal, and a new budget is adopted for the ensuing year. The budget for Greenwood Township, as presented in the accompanying financial statements is the amended budget as well as the original adopted budget for the funds required to be budgeted under state statute.

NOTE 2- STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information – Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America and state law for the general and special revenue funds. All annual appropriations lapse at the fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level. State law requires the Township to have its budget in place by April 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits Townships to amend their budgets during the year.

Excess Expenditures Over Appropriations in Budgeted Funds - The Township is required under Public Act 621 of 1978 to adopt (pass) a budget (General Appropriations Act) for the General Fund and Individual Special Revenue Funds. The Township complied in all areas. No expenditure line items exceeded budgeted amounts.

Uninsured – Uncollateralized	<u>54,301</u>
	<u><u>\$ 466,130</u></u>

Investments – Act 217, PA 1982, authorized the Township to deposit and invest in the following:

- a. Bonds, securities, and other direct obligations of the United States or its agencies.
- b. Certificates of deposit and other savings instruments issued by a federally insured bank, savings and loan or credit union maintaining an office in Michigan.
- c. Commercial paper rated prime at the time of purchase and maturing not more than 270 days after the date of purchase.
- d. Mutual Funds comprised of investments which are legal for direct investment by local units of government in Michigan.
- e. U.S. Government or federal agency obligation repurchase agreements.
- f. Bankers' acceptance of United States banks

Credit Risk

State law limits investments in certain types of investments to a prime or better rating issued by nationally recognized statistical rating organizations (NRSRO's). The Township has no investments at March 31, 2007.

Interest Rate Risk

The Township has not adopted a policy that indicates how the Township will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by limiting the weighted average maturity of its investment portfolio to less than a given period of time. However, there are no investments at March 31, 2007.

NOTE 3 - CASH AND INVESTMENTS (CONTINUED)

Concentration of Credit Risk

The Township has not adopted a policy that indicates how the Township will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the Township's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized.

Custodial Credit Risk

The Township has not adopted a policy that indicates how the Township will minimize custodial credit risk, which is the risk that in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments of collateral securities that are in possession of an outside party. However, there were no investments at March 31, 2007 with this risk.

The Township Board is authorized to designate depositories for Township funds, and the funds are invested in accordance with State of Michigan statutory authority. There were no investments at March 31, 2007.

FINANCIAL AUDIT COMMENTS

June 27, 2007

Township Board
Greenwood Township
Lewiston, Michigan 49756

In planning and performing my audit of the general purpose financial statements of Greenwood Township, Oscoda County for the year ended March 31, 2007, I considered its internal control structure in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure. However, I noted certain matters involving the internal control structure and its operation that I feel should be brought to your attention

CREDIT CARD POLICY

Public Act 266 of 1995 specifically authorizes local governmental units to use credit cards in order to incur appropriate expenditures on behalf of the unit. In order to satisfy this statute a written policy must be adopted by Board resolution. I have provided township officials with a copy of the requirements.

INTERNAL CONTROL STRUCTURE

Because of its size, the Township has a limited internal control structure. The Clerk and the Treasurer receive the income, pay the bills and post all journals and ledgers. It is impractical and cost prohibitive to make the system any more elaborate, however, this letter informs the reader that such a system is not in place.

This report is intended solely for the information and use of the Greenwood Township Oscoda County, Michigan, management, and others on the board, and the Michigan Department of Treasury. This report is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Thomas R. Zick CPA, P.C.
Certified Public Accountant
